Comshade® is ideal for large commercial projects where the fabric is supported by engineering certification, that allows the knitted shadecloth to be placed under higher tensile loadings.

Comshade® offers excellent weight to strength ratios.

Comshade® is heat set, making it much easier to use. It lays very flat so it will not curl or roll up when being marked out, cut and sewn. This means major savings in time and fabrication costs.

Comshade® has less shrinkage and is more stable, while maintaining its strength and over 90% UV protection and shade factors.

Comshade® comes in an excellent range of 16 designer colours.

Comshade® is made to the highest quality standards, and is supported by a 10 Year UV warranty.

Comshade® is made from virgin resins and only the best UV stabilizers from Ciba Speciality Products.

Colours	UVR%	Mean UPF	Shade Factor (Visual Light) %
● Porcelain	96.1	41	77
